HUMANATWORK.AI

For the person who keeps *meaning to start*.

You opened ChatGPT three times this month. You closed it without finishing what you came for. That is not a discipline problem, it is a starter-prompt problem. The 5 in here are paste-ready, tested on real work, and short enough to run all 5 in one sitting. The Paste Pack at \$79 ships the other 23 once these earn their place.

HOW TO USE THE 5

READ ONCE	<i>Setup</i>	Pick the LLM you already have open. Free tier works.
PROMPT 01	<i>Email triage</i>	Paste your inbox subjects. Get ACTION, READ, ARCHIVE.
PROMPT 02	<i>Meeting prep</i>	Paste tomorrow's calendar. Get agenda plus 3 risks.
PROMPT 03	<i>Doc summary</i>	Paste a doc. Get 3-bullet TLDR plus the 1 decision.
PROMPT 04	<i>Pre-mortem</i>	Paste a decision. Get 3 failure modes.
PROMPT 05	<i>Weekly review</i>	Paste your week. Get the 1 thing you avoided.
WEEK 1	<i>Ship</i>	Run on real work, not practice. Pick 2 to keep.

Paste these. *Work changes.*

1 OUTCOME: INBOX TRIAGED IN 5 MINUTES Email triage

Paste into any LLM

Below are 30 unread email subjects + senders from my inbox. For each, output:

ACTION (needs a reply or work) / READ (FYI, no action) / ARCHIVE (junk)

For ACTION items, draft a 1-line reply I can edit.

Emails:

[paste your 30 subject + sender lines]

2 OUTCOME: EVERY MEETING HAS AN AGENDA PLUS 3 RISKS Meeting prep

Paste into any LLM

Below is tomorrow's calendar. For each meeting, output:

1. The agenda in 3 bullets
2. The 3 questions I should ask
3. The 1 risk I should surface

Calendar:

[paste tomorrow's calendar with attendees + meeting titles]

3 OUTCOME: DOC DIGESTED IN 60 SECONDS Document summary

Paste into any LLM

Below is a document. Output:

1. TLDR in 3 bullets
2. The 1 decision the document is asking me to make
3. The 1 question I should ask the author

Document:

[paste the doc]

*5 prompts that ship beats 200 prompts that sit in a
swipe file.*

Pick 2 to keep *this week*.

The 5 prompts work. The trick is keeping the 2 that fit your week, not all 5.

. *Which 2 prompts am I running this week?*

Pick 2. Email triage + meeting prep is the safest starter pair.

. *Which work block am I defending for the prompts?*

Time on the calendar. 10 minutes per day minimum.

. *What is the signal that says 'keep'?*

Specific. If the prompt saved 15 minutes, keep it. If not, drop it.

FAQ

Q. *Why PWYW?*

A. Funnel-top. Try the 5 free. If they earn the paste, ship me what they were worth.

Q. *Do I need a paid LLM?*

A. No. Free tiers of Claude, ChatGPT, Gemini all run these.

Q. *What if the 5 do not fit my work?*

A. Drop them. The 23 in the Paste Pack cover 5 more work modes.

Q. *Refund?*

A. PWYW. Pay what fits. No refund needed.
